Project 19: Surgical Robot Instrument Pose Estimation

Group Number: [Group 8]

Group Members: []

Supervisor Name: [Dr Stamatia (Matina) Giannarou]

DEPARTMENT OF
Surgery and Cancer

Imperial College London

1 Introduction & Background

[OpenCVAdaptive Exponential Smoothing\[1\]](#) (AES)

Glossary

AES Adaptive Exponential Smoothing[1] 1

OpenCV OpenCV (Open Source Computer Vision Library) is a library of programming functions mainly for real-time computer vision. Originally developed by Intel, it was later supported by Willow Garage, then Itseez (which was later acquired by Intel). The library is cross-platform and licensed as free and open-source software under Apache License 2. Starting in 2011, OpenCV features GPU acceleration for real-time operations.[2] 1
